PROFESSIONAL EXPERIENCE

Full Stack Developer | Dream Byte Solutions, Dehradun

Oct 2025 – Present

- Delivered 10+ client web applications end-to-end using **Next.js, Node.js, Express.js and MongoDB**, consistently meeting deadlines in Agile sprints.
- India Yoga Association, AYM Yoga School, Hatha Yog Ashram:** Built yoga platforms with program listings, teacher directories, online enrolment, student inquiry flows and blog publishing; reduced manual admin effort by ~60%.
- Yakka Pukka (SLA Audit Platform):** Engineered an audit management system to define SLA parameters, log findings, track compliance and generate reports.
- House of Intimacy:** Developed a mobile-first e-commerce platform with product catalog, category filtering and detailed product pages.
- Billing Software, Dream Inker, Looks Salon Academy, Chaukhamba Tour & Travels, Assignment Pathways, Dream Byte Studio:** Built invoicing (~50% faster invoice generation), appointment booking, course enrolment, travel booking, ed-tech and agency portfolio platforms with responsive UI.

MERN Stack Developer | GIKS Innovating Technologies, Dehradun

Mar 2024 – Oct 2025

- National Hydrographic Office (Indian Navy):** Led frontend development of a government portal on Liferay 7.4 DXP and Bootstrap for nautical and hydrographic data visualization.
- HRMS:** Built a full HR system with employee onboarding, attendance and leave, payroll, role-based access control and real-time notifications.
- BookVenue:** Developed a real-time venue and court booking platform with dynamic pricing, slot availability and instant confirmation.
- DigiCase, Arogyadham, KingsInfra:** Delivered a case study management system, a healthcare platform with appointment booking and audio analysis, and a B2B seafood export catalog platform.
- Pioneer Edge, Mukhyadhara ,HNN:** Developed WordPress news portals using Elementor, ACF, Yoast SEO, Rank Math and WP Rocket for fast-loading, SEO-optimized content.

Frontend Development Intern | Ensino Research and Development Pvt. Ltd.

Jul 2023 – Mar 2024

- Built UI features for production apps using React.js, Angular and Bootstrap, including authentication flows for an Online Banking System and Online Voting System.

FREELANCE PROJECTS | Next.js

- PetCard:** AI-enabled pet ID platform with QR Emergency ID and health records to reunite lost pets with owners.
- Puff House:** Puff House: E-commerce platform with Stripe payments, product management, cart, checkout, authentication and order tracking.
- Visezy (visezy.com, visezy.in):** Corporate website for a custom software company showcasing software, web, mobile and e-commerce solutions.
